# PERSONALISED TUTORING, SMALL CLASSES & INDIVIDUAL ATTENTION

We advocate our model of personalised tutoring in small sized group classes where we can provide maximum individual attention within a peer-motivated stimulating learning environment.

Further, we go beyond the class sessions as we provide out of hours help by sharing online resources and essay corrections and feedback.

All our study programs complement the student's schoolwork.

## TEACHING METHODOLOGY

Our teaching methods discourage mindless memorisation and cramming; we focus on developing concepts and teach through active methods like interactive discussions, research, and inquiry approach.

## EVALUATION REPORTS

We have topic tests, practice tests, HSC model exams, mid-term and end-of-term reports.

We provide continuous feedback and corrections leading to student's 100% mastery learning.

**FREE Essay and Assignment Corrections and Feedback, Course Materials and Online Resources**

# PRIVATE TUTORING (1-ON-1)

Private Tutoring (1-on-1) tutoring can be provided upon request at any time during the academic year.

Timings can be booked after consulting, as per students' convenience and teacher availability.

Fees, lesson timings and number of lessons enrolled varies as per student's needs and hence can be confirmed at enrolment/ booking time.

Students can take private lessons to complete a topic, brush up their knowledge, clarify or understand concepts better, or if they require mentoring to complete an assignment.

Private tutoring is flexible in terms of timetabling and number of lessons. Students can receive as many lessons as they need, depending on the complexity of the topic or assignment task and their needs. For example:

- 10 – 12 lessons to complete the term syllabus
- 4-6 lessons to cover a particular topic or major assignment

Each private lesson runs for an hour.

In lessons, students are given plenty of course notes and study materials, board practice papers and feedback, solution sets, homework and assignment help, and free essay marking. These materials complement what the student is doing in school, covering all topics in-depth.
